GOOD DAMAGES AND A LIFE-TIME JOB
Julian Hoskins Compromises His Suit for \$4,500 and a Position.

Four thousand and five hundred dollars and a life-time job is what Julian Hoskins, of Bowlet, State, has received from the hands of the Richmond, Fredericksburg and Potomac Railroad for the loss of a leg. This settlement was reached without the case ever having gone into court, and is regarded as one of the largest compromises ever given in Virginia for a similar accident.

A short time ago Hoskins, who was a brakeman in the service of the company, received injuries which necessitated the amputation of one of his legs. At the time he was in the southern part of the State and the railroad people had him removed to his home in Doswell, where he was given the very best of medical attention.

Hoskins is now able to be out, and it is said he intended filing suit against the Richmond, Fredericksburg and Potomac when he received from them a request to hold the suit, pending a compromise. He did so.

Had last Friday afternoon attorneys for the company made the proposition above recorded, it was accepted at once by Hoskins, and as soon as he is able he will assume the duties of the life-time position, it is stated that the duties which Hoskins will be asked to perform will consist of acting as flagman at a remote crossing near his home.

RICHMOND ELKS LEAVE TO-MORROW

Delegation Will Go on Southern to Salt Lake City in Private Car.

Richmond Lodge of Elks will compete for a prize at the meeting of the Grand Lodge in Salt Lake City next week. The delegation from this city will probably be the largest from the longest distance.

Captain Frank W. Cunningham, the delegate from Richmond Lodge, will have as his escort about twenty-five Richmond Elks, supplemented by others from Virginia. Those who will go from this city in the party on the Southern train leaving here at 2:30 to-morrow afternoon will be Messrs. W. C. Armistead, Frank T. Anthony, James Anthony, Simon Solomon, John T. Anderson, John T. Duffley, L. J. Guvernior, James Bartley, Henry P. Grinnell, John C. Weeker, T. B. A. Evans, S. L. Kelley, J. H. Cline, Julian M. Bossieux, G. F. Fitzgerald, Danville; F. D. McEwan, Spartanburg, S. C.

Other Richmonders will join the party at Salt Lake City.

A meeting of the Richmonders was held at the Commercial Hotel yesterday afternoon and all details were completed. The car that has been chartered is the finest Pullman car in the Southern service, embracing a buffet and all accessories that go toward making a complete outfit. Captain Westbury has exerted himself to give the party the best of the Southern company can give. Mr. Frank T. Anthony was chosen at the meeting yesterday as caterer, and he has already set about supplying the necessary adjuncts to a pleasant trip. The party will reach Denver Sunday morning, where they will be entertained by several Richmond people, who are now living in that city.

Monday morning they will leave for Salt Lake City, reaching there on Tuesday morning.

After the Grand Lodge meeting on Tuesday night the party will proceed to the coast, reaching San Francisco on Saturday, remaining in California about five days, taken up in side trips from San Francisco.

On the return Los Angeles will be visited, and other points on the great Sunset Route will be taken in. The return trip will be via New Orleans, and the party will get back to Richmond about September 5th.

The Richmond delegation will carry with them as souvenirs a handsome badge of ribbon with a cross bar of real gold, which was grown and manufactured in Virginia. This badge was designed and made by "Hello, Bill," better known as John C. Weeker, and will, no doubt, be in great demand for exchange at the Grand Lodge meeting.

Accompanying the party will be a number of ladies, including Mrs. F. W. Cunningham, Mrs. W. C. Armistead, Mrs. J. H. Cline, and Miss Grinnell. Mr. Phil G. Kelly, chairman of the Auditing Committee of the Grand Lodge, left for Salt Lake City yesterday afternoon, accompanied by Mrs. Kelly and their daughter. Mr. Kelly will join a party of grand officers at Chicago. This party will reach Salt Lake City on the 5th, and preliminary business will be transacted.

After the meeting of the Grand Lodge, Mr. Kelly will go to the coast and take a trip up the Pacific to Portland, Ore., coming back through the Yellowstone Park, and reaching home about September 1st.

In the Law and Equity Court yesterday afternoon, Attorney John Lamb entered suit for \$2,000 against the Dime Savings Bank, of Richmond, the plaintiff being J. L. Greenwald. The declarations did not contain the suit.

RAIN IS BADLY NEEDED

(Special Dispatch to The Times.)
HURT, VA., August 5.—The rains that have fallen elsewhere have not here, and have not yet visited this place. The crops are suffering greatly. Many of the trees in the forests are dying. The farmers are low spirited about their crops. The milk cows are being fed as though they were starved.

Rev. J. C. Holland, of Danville, is assisting the pastor of New Prospect Baptist Church in a revival meeting.

The nomination of Hon. Carter Glass seems to please the citizens in these parts. The people are much surprised at the verdict of the jury in the Campbell-Crawford case.

SECOND DISTRICT COMMITTEE

Met to Arrange Details of the Congressional Primary—A Boy Falls Four Stories and Badly Hurt—George Hopkins Fined in Court.

(Special Dispatch to The Times.)
NORFOLK, VA., August 5.—William Bain is lodged in jail here as a pensioner. He was arrested to-day at Soldiers Home, Hampton.

He is charged by Pension Examiner Tichey who is here from Washington, with drawing three or more pensions as Bain and as William Romain, and with applying for another pension as Christopher Brist, a dead soldier of New York. He was committed to prison here on a default of \$500 bail by United States Commissioner Bowden.

DISTRICT COMMITTEE MEETING.
The Democratic committee of the Second Congressional District met this morning at the Monticello Hotel. The members of the committee present were: Captain M. Curtis, of Newport News; George W. Jones, of Berkeley; Dr. George Butts, of Nansemond; Captain W. W. Dey, of Norfolk, was represented by John Whitehead.

The three candidates for the nomination to Congress—Joseph Lawless, Harry L. Maynard and Dr. J. P. Bryant—were on hand.

Dr. Bryant offered his resignation as a member of the committee. This had been declined by the committee before, but was accepted because insisted on by Dr. Bryant. William J. Sebrall was elected a member of the committee to fill the vacancy, and Captain W. W. Dey was elected chairman.

On motion of Mr. Whitehead, the committee adopted a resolution that in case the poll books cannot be found, the County and City Committees shall prepare a form of oath for voters.

On motion of Mr. Curtis, the qualification of a voter at the primary shall be that he shall have voted the regular Democratic ticket at the last gubernatorial election and shall pledge himself to vote for the nominee of the primary election.

FEEL FOUR STORIES.
Albert Pottley's young son, Albert, had an awful fall at noon to-day. He was in one of the small offices over the store of Miller, Broadway, and being unable to leave by the door, he went to the fire escape to attempt to go from that into the adjoining room by the rear. He missed his hold or his footing and fell to the alley, a distance of four stories. Assistance came immediately, and the boy was sent to St. Vincent's Hospital. His left leg is broken at the thigh and his body is fearfully bruised, but the physicians hope that youth and a strong constitution will pull him through.

George G. Hopkins, of Richmond, did not appear in the Police Court this morning, but he was fined \$5 and costs for disorderly conduct. The evidence was that he had been at Ocean View, and early this morning he was out with motormen and conductors of the Ocean View line. At 2 o'clock this morning he was arrested by the Police, and taken to the station.

The testimony of the police officers, Powers and McAnanah, was that they were suspected of highway robbery. They heard shouts of "Murther!" "Fire!" "Police!" and then they saw a man running down the alley at Church Street under suspicious conditions. Hopkins, they thought, had been drinking, and he thought he was being robbed by men who were pretending to show him the way to the city or to show him the town. All of the men were armed with revolvers for disorderly conduct. Where Hopkins is nobody seemed to know at court, but he will have to pay a fine.

MAYNARD'S REASONS.
In speaking of the failure of the candidates to divide time and to speak yesterday at Princess Anne Courthouse Mr. Harry L. Maynard said he thought he offered a fair division of time, but that the two other candidates were combined against him. They did not write separate letters, but joint letters. He said further that he was anxious to speak to the people of this city. The meeting will be held in the open air on Friday night at Park and Brambleton Avenues to the music of a brass band and the illumination of fireworks. The prominent members of the organization declare that the crowd will be large and the candidates will be compelled to speak.

The Democrats of the Fifth Ward, formerly Brambleton, have determined to give the three candidates for Congress an opportunity to speak to the people of this city. The prominent members of the organization declare that the crowd will be large and the candidates will be compelled to speak.

NO GROUNDS FOR SINISTER RUMORS

King Edward's Condition Satisfactory—Rehearsals at Westminster Abbey.

(By Associated Press.)
LONDON, August 5.—A story afloat for several days, that a second operation for appendicitis will be performed on the King after the coronation, is denied here. According to all authoritative reports the King is making an excellent recovery, and it is considered unlikely that his physicians would allow him to endure the fatigue of the coronation ceremonies, if another operation was impending. The emphatic denials of the sinister rumors of King Edward's condition are confirmed by all persons who have recently visited His Majesty.

The King has commanded that coronation day and the anniversary of his coronation be observed as "collar day," a day of ceremony at the English court, when the courtiers wear the collars of their orders.

The rehearsal of the coronation in Westminster Abbey this morning was the most largely attended and elaborate one which has yet been held. The King and Queen and other important personages, who were not present, were represented at the proceedings by substitutes. Colonel Broklyhurst, equerry to Her Majesty, impersonated King Edward, and Lady Duffield, of the late Queen, impersonated the Queen. The rehearsal was a most successful one, and the pages carried out, theoretically, their functions of coronet carrying and train bearing.

Although the religious and musical features of the ceremony were omitted this afternoon, the instructions and regulations, by those who are not perfect in their parts, caused the rehearsal to occupy about the full time planned for Saturday's ceremonies.

Mr. J. E. Rupert was given permission to connect with the sewer on Main Street, between Twenty-seventh and Twenty-eighth Streets, and to pay for same himself, taking chances of having the money refunded to him by the city.

The committee then passed favorably upon the following matters: New curbing around First Market, so as to allow the movement of the place with granite.

That walk on Meadow, between Ivy and Grove Streets, be laid.

That walk on Hanover, between Lombardy and Vine, be paved.

That Passenger and Power Street Railway Company be requested to maintain the agreed schedule on all of their lines.

That walk on right side of Grove Avenue, between Robinson and Mulberry, be paved with gravel.

On motion of Mr. Peters the committee adjourned, having been in session not over an hour.

NEWS FROM NEW KENT
Severe Electric Storm Does Much Damage—A Young Man's Misfortune.

(Special Dispatch to The Times.)
ROXBURY, VA., Aug. 5.—This section was visited by another electric storm yesterday, doing much damage to corn. The storm was accompanied by a heavy wind. In many places fields of corn are flat on the ground. The corn crops were never better, the seasons are all that one could wish for.

Mr. A. R. Moore, a prosperous young farmer near Quinton, lost a fine horse during the storm yesterday. It is supposed the horse was shocked by lightning and died from the effects. This young man is one of the most beautiful young men in the county, and his loss is a great one.

Several carloads of melons are being shipped from here this week.

Several of the Western home-seekers around this week looking after farms. Several sales have been consummated, and the farmers are busy in the day is not far distant when all the land in the Peninsula will be taken by the Westerners.

As the primary election draws near the excitement is warming up to fever heat. The fight between Captain Lamb and Dr. D. D. Jefferson for Congress is the topic of the day. Both have strong followings, and it seems that people are about evenly divided in their choice.

Mr. Lee Leebear was the successful bidder for the repairing of the long bridge near this place. His bid was \$300.

Those who have cordwood to sell now are getting fancy prices. One gentleman near here has a deal of wood, and is selling it for \$1.50 per cord. The coal strike is helping the cordwood man.

Vegetables are plentiful, the prices hardly pay to haul, though the farmers are not complaining, for they have had their hay what is left over can be fed profitably to the stock.

News Notes From Elko.
(Special Dispatch to The Times.)
ELKO, VA., August 5.—A few nights ago by permission of the owner of the estate, Mr. Leon Webb, Messrs. Z. R. Halle, George and Jack Baker, cut down here a tree which was found to contain a quantity of honey stored within. It is estimated that the tree measured 4 feet in thickness through the bottom of the trunk, and that about thirty or forty pounds of honey was secured.

Protracted services will begin at Hardy Central Church a few miles above Gladstone next Sabbath. Rev. G. W. Sheriff is the pastor. A large attendance is expected.

Mr. William Adams has a fine crop of luscious melons, which he is disposing of in large quantities. Mr. Dudley Chadick, one of the best farmers in this section, has some of the largest cabbage ever seen around here. There is a plentiful supply of fruits and vegetables.

Trying to Poison Her.
Felina Munford (colored) alleges that some one is trying to put her out of the way by the use of poison. She has reported the matter to the Chief of Police, and was referred to the Coroner. She was notified to look out for such an attempt in future.

TELEPHONE MATTER WAS NOT DECIDED

Street Committee Heard Opinion of City Attorney Read and Postponed Action.

At a called meeting of the Street Committee, held last night in the City Hall for the purpose of considering the amendments to the franchise of the Richmond Telephone Company, granting them five years from date in which to place their wires under ground, and the privileges of increasing their present rates for phone service in the city, it was decided to postpone action until the next regular meeting of the committee, at which time a definite date will be set for taking the matter up for final disposal.

Immediately after the reading of the minutes of the previous meeting, the telephone matter was taken up, the clerk reading the opinion of City Attorney Pollard regarding the functions of the Council under the new Constitution in relation to franchises. The opinion was printed in The Times yesterday morning.

According to Mr. Pollard the City Council has a right to grant the amendments asked by the Richmond Telephone Company without violating the provisions of the new Constitution relating to franchises, he taking the stand that in granting the amendments the city would be giving away nothing additional, the company already having a franchise for the use of certain streets.

Mr. Minor was the only member of the committee to commit himself on the matter. He differed with the opinion of the City Attorney.

On motion of Mr. Peters the entire matter took the above course, and as a result the meeting was devoid of interest.

After the disposition of the telephone matter, the committee turned to the consideration of the rules so as to permit of the consideration of a number of slight improvements of sidewalks and streets in different parts of the city. The motion was carried.

The committee then passed favorably upon the following matters: New curbing around First Market, so as to allow the movement of the place with granite.

That walk on Meadow, between Ivy and Grove Streets, be laid.

That walk on Hanover, between Lombardy and Vine, be paved.

That Passenger and Power Street Railway Company be requested to maintain the agreed schedule on all of their lines.

TWO NOTABLE ADDRESSES MADE

(Continued from First Page.)

much less hesitation, and with a more assured sense of security if its managing officials are residents of Virginia, or otherwise directly amenable to the laws of the State regulating the management of corporations and imposing penalties for their violation.

EXACT EQUALITY.
"It should be the legislative policy of the State to encourage the formation of domestic corporations under general laws, placing all the corporations of the same class upon a footing of exact equality. And no method of obtaining a charter or certificate of incorporation should be simple and inexpensive."

"To impose a heavy tax on the charter or certificate of incorporation at the time it is obtained, is a mistake. A judge of the Court of Appeals of the State of New York has thoughtfully addressed on the 'Evolution of the Corporation,' made not long since, refers to the legislative policy of his State on this subject, and says that some years ago a very high incorporation tax was required, the result of which was to drive citizens of that State into neighboring States to obtain charters, and that the corporate business was transacted in New York just as if the charter had been obtained there. Thus the State in which the corporate business was done deprived itself of a very valuable source of taxation, and subjected to obtain the requisite revenue."

INCREASE OF REVENUE.
"Still more recent and more liberal legislation upon the subject has created an increase of revenue, which will render the absolute wiping out of a general tax on the incorporation of the new future. In other words, a large tax has driven corporations from the State and reduced our revenue, while a small or liberal tax has kept our corporations at home, thus reducing the general tax burden."

"The plan outlined in our new Constitution for the taxation of corporate privileges and franchises upon the taking out of the charter or certificate and afterwards, appears to be both reasonable and wise."

It is very important that the capital stock of a joint stock company, incorporated for the transaction of business of a private character, should not be too large, and the statutory regulations for the consolidation of corporations should be such as to make the consolidation of corporations only the great corporations and aggregations of corporations that are dangerous to the public interest. Amongst other evils incident to large corporations is the fact that the corporation the capital stock of which is too large, is tempted to increase.

But to be really valuable they must be constructed and maintained on solid foundations.

LIABLE PRIVILEGE.
For any number of individuals to be allowed to associate themselves together for the conduct of an important business enterprise upon a capital, large in itself, but made up of comparatively small contributions from each of the shareholders, beyond the actual input or sum agreed to be contributed, the profits and losses to be shared and borne by them in proportion to the amount of stock held by them respectively, is a very valuable privilege.

In return for the privilege which is conferred upon the association by a grant or charter constituting it a corporation, the association owes to all the people of the State important duties.

The business of a corporation must, of necessity, be managed by a board of directors or other managing body of a similar character.

It is essential to their interests that the management be conducted with diligence and with the utmost honesty and fidelity. In order to insure this, the managing board and other officials and agents should be held to a rigid accountability, and in all cases of intentional misconduct or of a serious neglect they should be visited with certain punishment.

A minority of the shareholders should also have the right to compel the winding up of an insolvent or failing corporation.

In no emergency or crisis in politics or war in which our proud old Commonwealth has been called on to take action has she ever failed to respond to the occasion. And, as a class, the farmers have been always conspicuous in upholding her hands and in maintaining her honor
